SUMMARY

Results-driven frontend developer with around 3.5 years of experience across fast-paced product startups and large-scale enterprise environments. Specializes in React.js ecosystem, Redux state management, and performance optimization. Passionate about clean component architecture, performance optimization, and shipping things that actually move the needle.

SKILLS

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3
- **React Ecosystem:** React Hooks, Context API, Component Lifecycle, Reusable Components
- **Styling & UI:** Bootstrap, Tailwind CSS, Responsive Design, Cross-Browser Compatibility
- **API & State Management:** REST API Integration, Axios, Fetch
- **Performance Optimization:** Lazy Loading, Code Splitting, UI Optimization, Chrome DevTools
- **Backend & Database:** Node.js, MongoDB, SQL
- **Cloud & DevOps:** AWS (S3, CloudWatch, SQS), Git, CI/CD, Jira, Confluence

PROFESSIONAL EXPERIENCE

WNS Global Services Senior Associate

BENGALURU
JAN 2024 – Present

- Integrated cutting-edge features like lazy loading and code splitting to optimize the application's performance, reducing initial load time by 35% and improving Lighthouse scores by 25%.
- Designed and maintained scalable **Redux workflows** to streamline asynchronous operations and ensure 100% traceability of application state changes.
- Partnered with design teams to translate Figma wireframes into pixel-perfect, responsive interfaces using CSS, SCSS, and Tailwind CSS, achieving a 95% stakeholder satisfaction rate.
- Leveraged Scriptura Engage to develop dynamic insurance documentation templates, cutting manual generation time by 50% and ensuring compliance with industry standards.
- Delivered production-ready features using Git, Jira, and CI/CD pipelines, maintaining 98% code coverage via unit/integration testing.
- Collaborated with cross-functional teams to deliver high-quality software solutions in a timely manner.
- Managed **SLAs** for enterprise clients, ensuring 100% on-time delivery of critical software updates while maintaining a 97% client retention rate.
- Technologies Used: React.js, SQL, CSS, HTML, SCSS, Redux, Tailwind CSS.

Freightify Junior Software Development Engineer

CHENNAI
July 2022 – July 2023

- Built scalable and responsive web applications using React.js, ensuring optimal performance across devices and achieving a 98% cross-browser compatibility rate.
- Seamlessly integrated **REST APIs** to fetch and update data, enabling real-time communication between front-end and back-end systems, reducing latency by 20%.

- Transformed wireframes and mockups into reusable, pixel-perfect React components, improving development efficiency by 30% and ensuring alignment with design specifications.
- Introduced a Bulk Update feature, enabling clients to update multiple documents simultaneously, reducing manual effort by 40% and improving user productivity.
- Successfully performed MongoDB migration from version 4.2 - 6.0.
- **Technologies Used:** React.js ,Node.js , MongoDB , SQL, CSS, HTML, SCSS, SQS, Redux, Tailwind CSS

EDUCATION

Bachelor of Technology, Sri Eshwar College Of Engineering
CGPA: 8.7

COIMBATORE
2019-2023

PROJECTS

Github Profile - github.com/Santhoshvenkidusamy

Swiggy Clone

- Developed a feature-rich Swiggy-inspired web application using React.js and Redux, integrating **Swiggy's APIs** to replicate core functionalities including real-time restaurant listings, dynamic menu systems, and order processing workflows.
- Engineered a responsive UI with Tailwind CSS, achieving 95% visual clarity with the original platform's user experience across desktop and mobile devices.
- Implemented **state management** solutions for cart operations, reducing API call redundancy by 30% through Redux middleware optimization.
- Technologies Used: React.js , Redux , Tailwind CSS
- **Live Link** - foodyclone.netlify.app

Personal Portfolio Website

- Built a fully responsive personal portfolio using React.js.
- Designed a pixel-perfect, accessible UI with **Tailwind CSS**, featuring smooth scroll animations, dark/light mode toggle, and full mobile responsiveness.
- Deployed on **Netlify** with continuous deployment via GitHub, ensuring automatic builds on every commit to main.
- Technologies Used: React.js, Tailwind CSS, Netlify
- **Live Link** - santhoshvenkidusamy.netlify.app
